

*Management Letter*

**Guam Power Authority**  
(A Component Unit of the Government of Guam)

*Year Ended September 30, 2024*

May 28, 2025

Mr. John M. Benavente  
General Manager  
Guam Power Authority  
Gloria B. Nelson Public Service Building  
688 Route 15, Mangilao, Guam 96913

In planning and performing our audit of the financial statements of Guam Power Authority (GPA or the Authority), a component unit of the Government of Guam, as of and for the year ended September 30, 2024, in accordance with auditing standards generally accepted in the United States, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, we considered its internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

During our audit, we identified other matters that we wish to bring to your attention.

## **1. Other Matter – Noncompliance**

### **Condition:**

The Authority maintains a Working Capital Fund pursuant to the Senior Indenture, which is required to be funded in an amount equal to 1/12th of the aggregate amount of Maintenance and Operating Expenses, including fuel costs, budgeted to be paid from Revenues during the then-current Fiscal Year. At September 30, 2024, working capital fund fell short from the required minimum balance.

### **Recommendation:**

We recommend that GPA management timely address working capital fund requirement.

Guam Power Authority (A Component Unit of the Government of Guam)

**2. General IT Controls - Untimely Removal of System Access of Separated Employees**

Condition:

Four (2) out of five (5) sampled users have system access untimely removed beyond the employee's resignation date:

<b>Employee</b>	<b>Termination Date</b>	<b>Access Termination Date</b>
Perez, Micah B.	4/19/2024	5/19/2024
Benavente, Patrick Q.	7/12/2024	8/13/2024
Santiago, Howard B.	8/30/2024	9/27/2024
Otte, Frederick	8/23/2024	10/5/2024

Recommendation:

We recommend that management reviews policies and procedures to ensure timely termination of user access.
