Guam Preservation Trust

was created as a nonprofit public corporation in 1990 by Public Law 20-151, and is governed by a Board of Directors. It is dedicated to preserving Guam's historic sites and culture as well as educating the public about those issues. Although primarily tasked with restoring historic structures, which are listed in the Guam Register of Historic Places and/or the National Register of Historic Places, GPT also funds various types of cultural preservation projects. The Board of Directors consists of 10 members representing 5 fields of expertise: Archaeology, Architecture, Chamorro Culture, History and Planning. There are two members in each field (primary and alternate capacities). Board members appointed by the Governor and approved by the Legislature to the Historic Review Board of the Guam Department of Parks and Recreation, automatically sit on the Trust Board.

Its mandated purposes are:

- To seek outside grants and donations;
- To acquire title to threatened Guam properties for the preservation of their historical value, whether in fee simple, by leasehold, or by easement, and whether through donation, transfer, dedication or purchase;
- To award grants for:

I. Historic Property Documentation and Register Nomination

This program assists in the documentation of the historic significance of places, objects, structures, buildings, and sites, and in the formal process for registration and nomination for listing on the Guam and/or National Register of Historic Places.

II. Public Interpretation and Presentation

This program provides assistance in the interpretation and presentation of one or more historic properties for public appreciation and enjoyment.

III. Architectural History

This program focuses on architectural research and documentation of historic structures.

IV. Repair, Restoration or Renovation of Historic Buildings and Structures

This program assists owners of historic properties or interested community organizations in the care and treatment of deteriorating historic structures and buildings.

V. Ethnography and Oral History

This program provides assistance for research on and documentation of historic places and the traditional cultural values, and practices that give these places, values, and practices significance. The research methods used in this program are those of ethnography and oral history.

VI. Archival Research

This program provides assistance in archival research that focuses on specific historic places or broad patterns of events significant in Guam's history.

VII. Archaeological Research

This program provides assistance in archaeological research, with the exception of archaeology that is required by law to complete compliance obligations imposed in development review and permitting processes.

VIII. Miscellaneous

The miscellaneous program provides for potential consideration of proposals that can be justified according to the purposes of GPT but which do not fall within the programs listed.

COMMUNITY PARTNERSHIPS

The Guam Preservation Trust has partnered with over 75 public, private, and individuals from the community to oversee more than 22 grants and projects to accomplish *proposed outcomes* for this year. All have been successful in their respective delivery to the community for their benefit and appreciation.

During Fiscal Year 2015, the Guam Preservation Trust Board of Directors appropriated a total of about \$4.4 million to fund 22 grants and projects, an increase compared to last year's total of 17 submissions. The top three projects: (1) the Rehabilitation of the Guam Legislature/Guam Congress Building (\$2,759,278 for construction); (2) Demolition of the Manuel Guerrero Bldg. (\$1,000,000) as mandated by PL 32-33; and (3) Architectures and Engineering Design for the FQ Sanchez Facility in Humatak (\$208,054). These projects all fall within the Trust's mandate to preserve and protect historic sites on Guam.

Grants and Projects funded by Guam Preservation Trust

The Guam Preservation Trust presents its report as a testimony of the diligence and dedication of the Guam Preservation Trust Board of Directors, staff, and the preservation community in accomplishing this year's proposed outcomes and achieving the standards of success expected of the community.

REGIONAL AND NATIONAL SUPPORT

The Guam Preservation Trust has made strides in developing partnerships with technical and professional resources in the preservation arena. These resources are invaluable and contribute to the capacity building of our community and advancing preservation on Guam. The following are preservation partners in the region and the nation: Australian Institute of Maritime Archaeology (AIMA), Flinders University, Adelaide, South Australia; Nautical Archaeology Society (NAS) in association with Centre for International Heritage Activities, Netherlands (CIE); Spanish Programs for Cultural Cooperation (SPCC), University of San Carlos, Cebu, Philippines; Asian American & Pacific Islanders Caucus for Historic Preservation (AAPPI); National History Day, Inc. (NHD); National Trust for Historic Preservation, Western Division (NTHP); SNR Denton U.S. LLP; University of Hawaii (UH); National Park Service (NPS); Association for Preservation Technologies International (APT), Asian and Pacific Islander Americans Forum for Historic Preservation, Northern Marianas Humanities Council (NMHC), Northern Marianas College, National Park Service (NPS), U.S. Federal Highway and Waterways Agency (FHWA), U.S. Dept. of Interior (DOI/TAP); The Nature Conservancy (TNC); and UNESCO.

REVENUES & EXPENDITURES

The Guam Preservation Trust receives most of its revenues from the Building Permit Fees administered by the Guam Department of Public Works. For Fiscal Year 2015, a total of \$924,329 was collected from building permit fees, a decrease of 34.58% from the 2014 total of \$1,413,023. The decrease is a result of a decrease in construction activity on Guam for that period. Interest income on investments slightly increased between FY2015 and FY2014. In FY2015, \$148,473 was earned on interest income, compared to \$118,423 in FY2014. The 25.38% increase is due to the increase in interest on cash equivalents and investment accounts. For FY2013, there was a change in the Asset Allocation Rates of the Trust Investment Policy. The new Asset Allocation rates are 80% investment on cash equivalents and 20% on equity investments.

Our Outlook and Future Challenges

The source of preservation income to the Guam Preservation Trust is expected to be cut by 50% as a result of the passage of Public Law 33-66. Furthermore, one million dollars of Guam Preservation Trust funds were authorized by Public Law 33-19 for the demolition of the Manuel F. Guerrero Administration Building. As a consequence, many previously scheduled reconstruction projects have also been placed in queue pending the availability of funds such as the F.Q. Sanchez facility rehabilitation, Atantano Heritage Preserve, Rosario House A&E and restoration, Reconstruction of the Meno, Chargualaf and Lujan Homes in Inarajan, the Cathedral Bell Tower, Former Archbishop Flores House HSR.
