Moving forward...

Challenges

Overcrowding: For the past few years, the department has continually seen an overwhelming increase of prisoners being incarcerated at its Mangilao facility. This escalation has led to units and buildings being converted to housing units for the inmates.

Dilapidated buildings and antiquated official vehicles: Buildings that were once designated for treatment and rehabilitation were transformed to prisoner quarters. Treatment programs are limited due to lack of space.

Antiquated official vehicles increase the risk for officer safety. Resulting in the decrease in field operations (curfew checks) and execution of Board ordered Warrant of Arrest.

Inadequate staffing: Additional Corrections and Parole officers are needed for safety and security. Address overtime issues and civilian and treatment staff to provide prisoner services.

COVID-19:
 Combatting a pandemic

Outlook

Work collaboratively with the Judiciary of Guam to provide treatment programs for parolees who have been accepted into an intensive program.

In partnership with Guam Behavioral Health & Wellness Center (New Beginnings) in providing assessments for treatment.

We continue to recruit new officers and invest in the staff we currently have by bringing valuable training to address prisoner safety and reduction of recidivism.

Multiple security measures in response to COVID-19 outbreak. Suspension of all social visits, community work detail programs and volunteer visits. Temperature checks, wearing masks, routinely disinfecting surfaces, and having adequate medical and cleaning supplies on hand.

We strive to ensure all inmates being released are safe to return to society and are equipped with the adequate skills needed to be a contributing citizen of Guam.
