Business DEVELOPMENT

The Business Development (BD) Division of GEDA prioritizes the development of Guam's economy by supporting local enterprise and attracting new investments through incentive programs and industry diversification efforts.

ECONOMIC DEVELOPMENT TRADE MISSIONS

2 Trade Missions in 2018 resulted in:

Discussions with prominent Philippine businesses to encourage further investments in Guam related to hotel development and tourist entertainment.

Additional flights between Philippines and Guam through Philippines Airlines with the potential to include service between Guam and Japan.

Discussions with Taiwan civic and business leaders for the development of new industries or strengthen existing industries in Guam. These meetings included Taiwan President Tsai Ing-Wen and Taipei Mayor, Ko Wen-je.

45 year commemoration of the Sister-City Relationship with Taipei. A new Letter of Agreement was signed for friendly exchanges of Economy, Tourism and Culture.

QUALIFYING CERTIFICATE (QC) PROGRAM

The QC is an economic incentive tool to entice investors in use for over five decades, and has had a substantial positive impact upon the economic development of the island.

The passage of P.L. 32-233 established the Special Hotel QC, which addressed the need for additional hotel rooms.

In 2018, Governor Calvo issued Executive Orders 2018-02, 2018-06, 2018-08 initiating and extending a moratorium of the renewal of QCs. EO 2018-08 indefinitely suspended all renewals until a new EO is issued or legislation is passed revoking the moratorium.

The 34th Guam Legislature extended the moratorium on all QC renewals until September 2019 and included a provision that requires their approval of new QCs prior to submission to the governor for approval.

GUAM PRODUCT SEAL PROGRAM

62 Guam Product Seal (GPS) permits were issued in 2018 to local manufacturers.

GEDA held 2 "Made in Guam" fairs and participated in the Guam Visitors Bureau inaugural InstaGuam Fair promoting Guam as a world-class

tourist destination as well Guam's local manufacturers with the distribution of GPS items.

Through these events GEDA reached thousands of potential consumers for their permit holders and strengthened the GPS brand.

Fiscal Year 2019 INITIATIVES

QUALIFYING CERTIFICATE

The Business Development Division has begun to hold regular meetings with the Compliance Division and members of the GEDA Board to formulate strategies to improve the QC Program by granting targeted, controlled tax incentives to specific industries and activities. These strategies will also take into account the current financial situation of the Government of Guam as well as current economic trends.

ECONOMIC DEVELOPMENT TRADE MISSIONS

BDD will be develop and lead trade missions and business trips to market Guam's various economic opportunities. Not only are we focused on enticing investment in key industries, we aim to secure investment into new and burgeoning industries. Planned 2019 trade missions include: China (March), Manila (April), Taiwan (August), Vietnam and Indianapolis (October).

SMALL BUSINESS DEVELOPMENT

In reaffirming GEDA's commitment to support local manufacturers, farms and business people, BDD will spearhead projects in several small business development activities aimed at growing and providing more opportunities for local entrepreneurs.

GUAM PRODUCT SEAL (GPS)

GEDA will continue to seek local manufacturers to enroll in the Guam Product Seal program; with a goal of 90 GPS permit holders by the end of 2019.

AGRICULTURE ACCELERATOR PROGRAM

GEDA is spearheading the "Farm to Cafeteria" program in an effort to bring in locally grown fruits and vegetables into Guam's local schools. This pilot program is gearing up to be launched by Sept of this year for Okkodo High School and Ordot Elementary with the intent to roll out to more schools in the coming months.

STEP GRANT

BDD will engage in a cooperative arrangement with the Guam Small Business Center to provide training opportunities and workshops to local small businesses that are looking to start or to expand their business to include export of goods and services from Guam.

OPPORTUNITY ZONES

GEDA has taken the lead to inform key groups such as realtors, mayor's council, and potential investment groups. The incentive established by Congress in the Tax Cuts and Jobs Act of 2017 encourages long term investments in low in-come urban and rural communities nationwide and the US Territories. Guam's first Opportunity Zone project is scheduled for a housing development this year.

COMMUNITY CONTRIBUTIONS PROGRAM

With guidance from the CEO/Administrator and Deputy Administrator, the Compliance and BD Divisions collaborated in developing the QCCC Grant Program which was adopted by the GEDA Board in March 2019. This grant program allows not-for-profit and government entities the ability to apply for funding specific program area interests such as Health Care, Public Safety, Higher Education, Cultural Preservation, Tourist Attractions and/or Projects, or Sports Tourism. The grant program is expected to commence in FY 2020.

Challenges Affecting GEDA

1 UNFUNDED LEGISLATIVE MANDATES

GEDA over the years has been mandated by the I Liheslaturan Guahan to perform duties that are **not financially supported**. Unlike the line agencies, GEDA is not supported by Legislative appropriations. **All expenses incurred by GEDA to meet the unfunded mandates must come out of the agency's finite operating revenues.**

2 PUBLIC LAW 32-40 LEASE LIMITATIONS

Public law 32-40 imposes a five (5) year duration on commercial leases. This short time period makes GEDA's commercial leases on available government-owned lands **less attractive and difficult to market** at fair market rental value.

3 LAND AVAILABILITY/LOSS

Property leases are the primary funding source of GEDA's operations, with many **locked until 2065**. Without additional properties, it would be impractical for property lease revenues to sustain GEDA's continuing operations and initiatives into the future.

PLANNED PUBLIC FINANCE PROJECTS

GUAM MEMORIAL HOSPITAL LABOR AND DELIVERY WARD

Public Law 32-204 as amended by PL 33-151 authorized a \$9.2M financing for renovation of the Guam Memorial Hospital Labor and Delivery Ward. GEDA has been working to close this loan with USDA at an interest rate of 2.75%. An RFP for interim financing was issued four times during FY2017 but GEDA was not successful in coming to terms with the proposer.

GUAM DEPARTMENT OF EDUCATION REPLACEMENT OR RENOVATION GDOE FACILITIES

Public Laws 31-229, 32-120, 32-121 authorized the financing for the rehabilitation, construction, expansion and renovation of the Simon Sanchez High School and the 34 public school facilities and to provide collateral equipment, maintenance and insurance. After a protest on the initial award was determined to have merit, DPW cancelled the RFP and has reissued a new RFP in January 2017. A contractor has launched a protest once again which has placed the procurement on hold.

GUAM SOLID WASTE AUHTORITY

No. 35-21, GEDA is facilitating the financing of a \$30 million bond/loan for the purpose of financing a new landfill cell for the Layon Landfill. This financing is a Federal Court Condition of transitioning the GSWA system from the Receivership back to the Government of Guam. This financing is scheduled to be closed by the end of July 2019.

GUAM INTERNATIONAL AIRPORT AUTHORITY

GEDA is working with the GIAAI a current refunding of \$21.405 million of GIAAI's bonds. If secured, the refunding will produce \$1.9 million of debt service savings, or approximately 8.9%. The refunding is authorized by newly introduced Bill 140-35 with a goal to close this financing by the end of August 2019.

DEPARTMENT OF LAND MANAGEMENT

Public Law 29-135, authorized the financing for a new Land Resources Public Facility and for the purchase of collateral equipment in an amount not to exceed \$15.75 million. GEDA and DLM were not able to secure the loan through Bank of Guam due to stringent requirements. GEDA will continue to work with DLM on possibly approaching the USDA for assistance. This project has been put on hold until additional funding is made available to secure the financing.

OTHER PUBLIC FINANCE PROJECTS

DEBT ABSTRACT

The Public Finance Department issued the latest GovGuam Debt Abstract reflecting the government's debt position as of November 2018. The abstract further details our current debt capacity, bond ratings per bond and annual debt service due on all bonds.

GOVGUAM DEBT MANAGEMENT PLAN

As part of the OPA audit on the Government of Guam Public Debt (OPA Report No. 14-01), it was recommended that GEDA work with the Office of the Governor on a Formal Debt Management Policy which would describe the process of establishing and executing a strategy for managing the government's debt.

4 H2B VISAS

Since 2015, Guam employers have been experiencing extremely high incidents of **H2B petition denials and requests for evidence notices** from U.S. Citizenship & Immigration Services. Denials have been about 95% compared to an approval rate of about 96% for the past 30 years. This change in USCIS adjudication appears to be due to a Returning Workers provision included in the **2016 Omnibus spending bill** that quadrupled alien workers eligible under the U.S. Mainland's H-2B cap, and the pressure by construction labor unions to reduce foreign workers in the U.S. But **Guam does not have an H2B cap nor construction labor unions**. Additionally, the U.S. Department of Homeland Security has issued an order that bans any and all new H-2B labor from the Philippines (the main source of Guam's H-2B workforce). Recently, federal legislation was enacted to provide an avenue for direct, on base military construction projects as well as projects outside the military fences for projects determined to be directly correlated to the military buildup in Guam to obtain H-2B labor. There has been no resolution to H-2B denials for any other local construction projects.
