ABOUT US

Guam Economic Development Authority (GEDA) a public corporation (12GCA Chapter 50), was created by enabling legislation on August 21, 1965, under Public Law 8-80. Under PL8-80, the Authority has been given rather broad responsibility to the centralized direction, control, and supervision of an integrated plan for the economic development of Guam. GEDA focuses on key areas including new industry development, local business support services, compliance monitoring for tax credit and tax incentive programs, commercial loan programs, and government real property management. Additionally, GEDA is the Central Financial Manager for the Government of Guam and assists agencies with financial advisory services, capital financing, debt management, and annual financial reporting on debt instruments.

OUTLOOK

AREAS OF FOCUS FOR THE COMING YEAR

FURTHER STRENGTHEN GOVERNMENT SERVICES

- Continue advocacy for bond rating upgrades
- Guam Healthcare Campus Financing
- Simon Sanchez High School Financing

SMALL BUSINESS DEVELOPMENT

- \$58.2 million SSBCI Program to assist small businesses
- Develop other assistance programs

ECONOMIC DIVERSIFICATION INITIATIVES

- Transshipment
- Aquaculture
- Additive manufacturing
- Telecommunications

PROMOTE SUSTAINABLE PRACTICES

- Continue QCCC Grant Series
- Guam Product Seal Program
- Childcare Grant Program

DOING BUSINESS ON GUAM

- Improving access to capital
- Economic development trade missions

ENHANCE AND MODERNIZE PROGRAMS AND SYSTEMS

- Qualifying Certificate Program
- Small business lending programs

CHALLENGES

- GEDA over the years has been mandated by the I Liheslaturan Guåhan to perform duties that are not financially supported. All expenses incurred by GEDA to meet the unfunded mandates must come out of the agency's finite operating revenues.
- Land Availability/Loss - Property leases are the primary funding source of GEDA's operations. The vast majority of commercial leases under GEDA's purview were negotiated in the 70s and 80s. During that time, the primary goal of GEDA was to spur economic activity through attracting industrial and commercial development. Although accomplishing this goal, many leases are locked until the 2060s. Thus, the revenue generated is less able to sustain GEDA's continuing operations and initiatives into the future.
- P.L. 32-40 and later amended by P.L. 34-99 imposed a five (5) year duration limit on commercial leases. The law had unintended consequences for GEDA. This public law essentially created additional requirements to public land leasing, further complicated the process, and added additional time required to complete compliance with its process. This short-time period makes GEDA's commercial leases on available government-owned lands "less" attractive to potential developers.
- An example of an unfunded mandate includes GEDA's role as the Central Financial Manager and Consultant for the government of Guam. In recent years, GEDA had to record hundreds of thousands in write-offs from work done on anticipated financing request not completed for various reasons, primarily from failure to secure legislative support.
- GEDA is hampered by legislation that restricts GEDA's ability to receive bond fees, specifically P.L. 34-57 which states, "All fees that the Corporation may be eligible for resulting from its role as the Central Financial Manager for the government of Guam, shall be paid from the source of repayment for the bonds and other obligations and shall only be included in the amount borrowed for new bond issues if the fees are to be included as part of the first and second year's debt service as a 'principal only' or 'reduced interest' payment.
